

University guide

Description:

The university guide is a helpful website that gives future students the info and tools to make smart choices about your university options. It will have all the essential information about private university. You can easily compare universities using important factors like different ranking, tuition fees etc. you could know the university has hall facility or not .Also can know how much money the student spend on monthly basis and You can also contact the senior of the university through our website. Also after admission the students will get a clear idea about the university according to their ability and they can choose the subject according to their choice within their ability and achieve their own success through our website.

Comparison with another website:

We have searched many websites related to our website and those websites have given an idea about the process to get admission in the university. And if we need to get information about any university then we have to specifically go to the website of that university and collect all my information. There all the information is not combined with all the universities and no information is included according to the convenience of the students.

Option analysis:

Unique selection reason:

1.Ranking: Different university have different ranking on the basis of ranking criteria .We compare university and shows ranking which is import and meaningful. (for example QS World University Rankings is -The rankings are based on a methodology that considers a range of factors, including academic reputation, employer reputation, research impact, and internationalization.)

2.Tuition fees: Different university Has different tuition fees. So ,you can search for university with in you budget.

3. weaver analysis: Many universities provides waiver to their students.so student will get accurate information

4.Senior contact: can contact the senior students of the university and get details idea about the subject.
